# IRRIGATION BOOMS

Wider irrigated width - 220'

The largest hard hose traveler manufacturer in the world has also manufactured booms for many years. Recent key improvements made **OCMIS** *the preferred brand and market leader* for booms as well as travelers.

**Many BOOMS  
now sold in the  
North American market!!**

- New Boom Features** - (features shown in photos)
- Wider irrigated width - 220'
  - Hydraulic lift to raise and lower the boom - up to 8' tall!
  - Nelson Rotator Sprinkler heads like those sold on pivots - 90% uniformity

• Standard end gun spray

- Ideal water uniformity (90%) and adjustable height
- 3 pipes per side - quickly couple to each other and to the central boom
- Ideal for many crops: potatoes, corn, tomatoes, broccoli, lettuce, cabbage, alfalfa, plus many more!

• End gun spray option

• Boom with optional drop hoses

As with irrigation reels, OCMIS booms are the perfect combination between high quality, better features and competitive price. Whereas many booms cost over \$30,000 and even \$40,000 an OCMIS boom with all these features are priced dramatically less.

• Easy to transport - pipes stack on the side of the reel

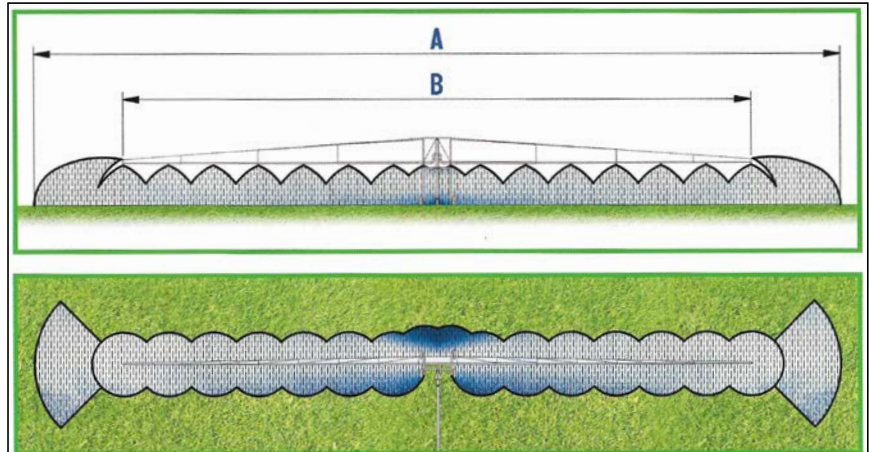

• Nelson Rotator Sprinkler heads like those sold on pivots - 90% uniformity

• Optional hydraulic lift to raise and lower the boom - up to 8' tall!

• Standard self-leveling
